

Gain Clarity. Reduce Costs. Build a Better Cloud.

Azure Assessment

Each Azure project begins with a focused assessment of your current environment. Our experts evaluate your infrastructure, address challenges like compatibility, security, and performance, and deliver a clear, actionable plan to help you get more value from Azure.

Why It Matters

Our Azure Assessment helps you cut waste, close gaps, and build a cloud foundation that scales with your business. Whether you're already in Azure or planning a move, we help you make smarter, more strategic decisions.

Objectives

- Evaluate your current Azure environment to understand configuration, usage, and potential gaps
- Identify opportunities to optimize cost and streamline your use of Azure services
- Improve performance, security, and reliability of your cloud investment

Deliverables

- Completion of key project milestones
- A clear Findings & Recommendations Report
- Optional Execution Plan (available at additional cost)

Total Avg. Cost: \$4,950*

*Price dependent on size of network and amount of devices

Milestones

1. Project Planning

Confirm Azure subscriptions, define goals, and gather access to necessary environments

2. Discovery & Analysis

Review architecture, usage, security, and cost—identify risks and improvement areas

3. Findings & Planning

Prioritize recommendations and review outcomes with your IT team

4. Project Completion

Deliver final reports and next steps for improvement or migration
