

Your Roadmap to a Smarter, More Flexible Cloud Workspace

Windows 365 / Azure Virtual Desktop (AVD) Assessment

Whether you're considering Windows 365 or Azure Virtual Desktop (AVD), our assessment helps you plan and deploy the right virtual desktop infrastructure for your business. We evaluate your current environment and provide a roadmap for performance, scalability, and resilience.

Why It Matters

With remote and hybrid work becoming the norm, having a reliable, secure, and scalable virtual desktop solution is essential. This assessment ensures your move to Windows 365 or AVD is strategic, cost-effective, and designed to support your workforce without compromise.

Objectives

- Define the ideal end-user experience
- Identify app and data access needs
- Design a management and governance strategy
- Develop a clear, actionable deployment plan

Deliverables

- Completion of key project milestones
- A clear Findings & Recommendations Report
- Optional Execution Plan (available at additional cost)

Total Avg. Cost: \$4,800*

*Price dependent on size of network and amount of devices

Milestones

1. Discovery & Planning

Review current Microsoft 365 and/or Azure subscriptions, assess existing environments, validate tenant configurations, review network topology, define endpoint and access strategies, and understand user and business needs.

2. Design & Strategy

Determine the right solution: Windows 365 or Azure Virtual Desktop. Define infrastructure requirements, architect the virtual desktop environment, and outline the rollout strategy aligned with your goals.

3. Project Completion

Deliver and review all findings, confirm assessment completion, and ensure full documentation and status updates are provided.
